GLASS FIREPLACE DOORS CAN REACH 1300°F

G.L.A.S.S. Preventive Measures
Place a GATE or screen around the fireplace door as a barrier.
LOOK where your children are at while the fireplace is on.
Be AWARE that glass doors can reach 400°F in six minutes.
Ensure the on/off SWITCH is not within your child's reach.
After SHUT OFF it takes approximately 45 minutes for the glass to cool down.
