

Burn Prevention Helpful Tips

More than **73%** of burn injuries occur in the home! Learn how to keep your family safe as you balance work and play within the home.

Prevent Scald Burns

Use the back burners of the stove and keep pot handles turned away from the edge to keep hot food and liquid out of reach of children.

Have a "kid-free zone" of at least 3 feet (1 meter) around the stove and areas where hot food or drink is prepared or carried.

Keep hot drinks off of low tables and away from the edges of countertops. Use a travel mug with a lid around children.

Set hot water heater at 120° F or just below the medium setting. Always supervise children while they are bathing.
